**The way to stay cool in the hot times is to be active!
There are things to do in Saginaw!**

The goal of this cooperative summer program, now in its 13th year, sponsored by the Community Education Department of the Saginaw Public Schools, the City of Saginaw and the Saginaw County Parks and Recreation Commission, is to involve the community in providing a variety of learning opportunities for school age children. In putting together this summer program, entitled **Hot Times Summer Youth Activities 2011**, we hope to achieve the following objectives:

1. To provide a wide variety of recreation, enrichment and academic activities that are enjoyable, affordable and accessible for school age children.
2. To help students develop a healthy appreciation for their leisure time activities.
3. To provide activities that prepare school age children for success.
4. To cooperate and collaborate with other agencies in creating and promoting positive activities, and by communicating these alternatives to students and their parents or guardians.
5. To provide a safe and healthy environment for students during the summer.
6. To challenge the youth of today and to help prepare them to become the leaders for tomorrow.
